B.A. SOCIOLOGY

Sociology is the science that deals with the study of the manifestations, systems and social relations, a careful analytical and descriptive study through the pursuit of different research methods, in order to reach the rules and laws governing the conduct of these phenomena and social relations.

This science also means understanding the nature of various social realities so that this society can draw up strategic plans, set goals and programs that will work to increase progress and raise society. In this article, we will inform you of the most important goals that this science means.

Objectives of Sociology

- Studying the general principles and pillars of social life.
- Studying the patterns of human and social behavior and their effects on the individual and society.
- The study and analysis of parts of social construction is a detailed study. This is because all other political, economic and educational institutions are affected by the prevailing social order.
- Knowledge of the laws of social transformation, which are aimed at studying the bases and rules that society must follow to make a qualitative leap in the case of society.
- Diagnosis and treatment of the various social problems experienced by society and the development of various plans to address them.
- To highlight the correct social concepts and to correct misconceptions related to social life.
- Laying the foundations of an ideal society.
- Introducing various social institutions that serve the community.
- Explain the concept of social unity and encourage society to achieve this concept.
- Studying social relationships that combine individuals. Developing different social theories.

Student learning outcomes in sociology :

By the time of graduation, sociology majors should be able to:

- Explain the sociological perspective, broadly defined; use sociological theory to explain social problems and issues; make theoretically-informed recommendations to address current social problems; and demonstrate the utility of the sociological perspective for their lives.
- Demonstrate the ability to interpret, locate, evaluate, generate, and use sociologically relevant data to test hypotheses and draw evidence-based conclusions.
- Integrate sociological theory, research, and data in order to assess various explanations of social phenomena and to assess social policy.

Upon completion of a B.A. in Sociology, students will:

- Think critically about the causes and consequences of social inequality.
- Design and evaluate empirical sociological research.
- Explain and apply the major theoretical perspectives in sociology.
- Communicate orally and in writing about sociological concepts.
- Use their sociological education outside of the undergraduate classroom, particularly in their careers or further education.

Semester I Sociology: An Introduction

Objectives of the Paper:

1. This paper intends to induct the students to sociology as the beginner of the subject.
2. The paper thus aims to expose the students to the basic concepts in sociology.

Mission, Goals, and learning Outcomes:

The Sociology Department seeks to develop in students the sociological knowledge and skills that will enable them to think critically and imaginatively about society and social issues. Through coursework, internships, independent studies and collaborative research with faculty, the Department encourages a commitment to social justice based on an appreciation of social and intellectual diversity and an awareness of social inequality.

The major in sociology is intended to serve as preparation for careers in teaching, delivery and administration of social and health services, urban and environmental studies, law, government service at local, state and federal levels and related occupations. The major also provides training for advanced graduate work in sociology, social work and other social sciences. Sociology is also recommended as a second major or minor for students of all other social sciences; for business; for the humanities; especially literature and theatre arts; for ethnic and area studies; for journalism and other various applied arts and sciences

Core courses provide students with a solid grounding in the fundamentals of the sociology discipline. Upper division concentrations in Deviance and Social Control; Interaction and Group Relations; Medical Sociology; and Social Change and Global Issues allow students to further focus and develop their understanding of specific fields within sociology.

Semester II Sociology Themes and Perspectives

Objectives of the Paper:

1. This paper intends to orient the students to certain basic perspectives in sociology.
2. The paper also intends to make students know in details about culture, stratification and mobility and the deviant patterns and social control in society.

Outcomes:

Our work in Student Affairs is guided by five learning themes which support the mission, values and educational outcomes of Goodwin College. Within each theme are broad outcomes that define and focus the themes. The themes and outcomes are used to guide the development and assessment of departmental and/or programmatic learning objectives.

Semester III Foundations of Sociological Thought

Objectives of the Paper:

1. The paper aims at orienting the students to the basic sociological thoughts of the great masters of sociology.
2. The paper also intends to help the students to shape their thoughts and ideas and also addressing

many current sociological issues and problems.

3. The objectives of the course are to provide students with some basic conceptual resources for tackling substantive and theoretical material in their 2nd and 3rd years

Aims:

This course will provide a basic but comprehensive introduction to some of the intellectual traditions within sociology with a focus on the origins of the discipline. The course will provide the student with the necessary conceptual tools to understand the distinctive origin and nature of sociology as an academic discipline and as a wider cultural presence within modernity. In all cases emphasis will be placed upon the specific historical context of particular writers and theories. It will be argued that the emergence of sociology and the social sciences in general represents an intellectual response to the cultural and material problems of capitalist industrial societies in the 19th and early 20th centuries. The course will equip students with the concepts and information necessary to grasp the main themes of the classical sociological tradition. The objectives of the course are to provide students with some basic conceptual resources for tackling substantive and theoretical material in their 2nd and 3rd years.

Outcomes:

This course will provide a basic but comprehensive introduction to some of the intellectual traditions within sociology with a focus on the origins of the discipline.

The course will provide the student with the necessary conceptual tools to understand the distinctive origin and nature of sociology as an academic discipline and as a wider cultural presence within modernity.

In all cases emphasis will be placed upon the specific historical context of particular writers and theories.

It will be argued that the emergence of sociology and the social sciences in general represents an intellectual response to the cultural and material problems of capitalist industrial societies in the 19th and early 20th centuries.

The course will equip students with the concepts and information necessary to grasp the main themes of the classical sociological tradition.

Semester IV

Indian Sociological Tradition

Objectives of the Paper:

1. The paper intends to make the students understand the seminal ideas and thoughts reflected in the works of Indian Sociologists.
2. The paper also aims to help the students in understanding at the theoretical level the sociological issues concerning Indian society.
3. To acquaint the students to the continuities and contradictions in Indian society.
4. To help students understand the history of ideas related to the analysis of Indian society.
5. To analyse the role of colonialism, democracy, nation building and globalization in shaping contemporary Indian society.

Course Outcome:

To ensure that students have understood the formation of the discipline in India and the challenges that it has faced.

To ensure that students have conceptual clarity and can articulate the main debates and arguments with regard to sociology in India.

To improve sociological understanding of Indian society.

Semester V

Indian Society: The Structural Issues

Objectives of the Paper:

1. The paper aims at acquainting the students with Indian society in terms making them know the issues and problems confronting the institutions of caste and family.
2. The paper also aims to bring into fore the issues and problems concerning the tribes and rural communities in India.

Course Outcome:

Learning Outcome: Students will be able to identify the philosophical, economic and political developments that lead to the development of classic social theory. Students will identify the function of theory in the social sciences. Students will be able to understand how Marx, Weber, Durkheim and Simmel conceived the discipline of sociology.

Semester VI

Current Social Problems in India

Objectives of the Paper:

1. The paper is based on the problems the society in India is facing at present.
2. The paper thus intends to make the students know the nature, causes and consequences of those problems as well as the measures to put a check on them.

Course Outcome:

Learning Outcome: It is hoped that exposure to the course will lead to a better understanding of the Change and Development Issues provide understanding about Paths and Agencies of Development, theories of development, Globalization Develop, a critical understanding regarding Development Programmes in India

B.A. HISTORY

PROGRAMME OUTCOMES –

1. Integrate student's learning across all facets of their lives.
2. Analyse critically and imaginatively. Develop skills of critical analyse and interpretation.
3. Communicate effectively
4. Understand the ethical implications of ideas, communications and actions
5. Appear in competitive examinations.

PROGRAMME SPECIFIC

1. Understand background of our historic past, religion, customs, institutions,

administration and so on.

2. Understand Social, Political, Religious and Economic conditions of the people.
3. Understand the history of world with comparative approach.
4. Analyse relationship between the past and the present times and bringing its contemporary relevance.
5. Emphasis on developing critical thinking in historical writing, discussion and interpretation among students.
6. Prepare students for various competitive examinations.

B.A. First Year- Semester- I
History of India from Earliest Times to 1525

Outcomes: -

1. Study the ancient Indian civilization such as Harappa and Vedic and understand social, political and religious changes during the period.
2. Develop the ability to understand the origin and tents of Jainism and Buddhism.
3. Acquire knowledge about ancient Indian dynasties – Maurya, Gupta & Vakataka.
4. Introduction to prominent Sultanate dynasties and their administrative systems in medieval India.
5. Acquire knowledge on religious, culture and art history in medieval India.

B.A. First Year – Semester- II
History of India from 1526 to 1761

Outcomes:-

1. To understand rise and establishment of Mughal dynasty in India.
2. Know about the war of succession or Shahjahan and understand the Deccan Policy of Aurangzeb.
3. Introduction to history of Marathas; understand significance of coronation and administrative system of Chhatrapati Shivaji.
4. Analyse the Maratha War of Independence and study third battle of Panipat in Peshwa period.
5. Understanding foundation of East India Company's rule in India.

B.A. Second Year- Semester -III
History of India : 1764 to 1885

Outcomes:-

1. Understand the rise of British Power in India and analyze their agrarian policy and land revenue system.
2. Analyze policies of Governor-Generals in India under East India Company's rule.
3. Study socio-religious movements of modern India.
4. Understand the administrative reforms introduced by Viceroys during establishment of British rule in India.
5. Analyze the causes of rise of Indian nationalism and emergence of local organizations.

B.A. Second Year- Semester IV
History of India : 1885 – 1947

Outcomes:-

1. Understand the origin and establishment Indian National Congress.
Understand the nature of moderates and extremists ideology.
2. Understand the phases of Indian National Movement and its impact under the leadership of Mahatma Gandhi.
3. Study various missions proposed by British government.
4. Examine role of Subhash Chandra Bose and his formed INA in struggle of Indian Independence.
5. Evaluate Mountbatten plan and Indian Independence Act of 1947.

B.A. Final Year- Semester- V
Modern World – 1789-1920

- Outcomes: -**
1. Introduction to landmark events in World history.
 2. Understand policy of imperialism and changes in world political order.
 3. Emergence of State of Germany and its diplomatic policy.
 4. Critically analyse background of First World War and international peace making attempts that followed.

B.A. Final Year – Semester- VI
Modern World : 1920-1960

Outcomes:-

1. Analyze causes for the rise of dictatorship in Europe.
2. Understand international crisis; inter world war period politics and events leading to Second World War and its aftermath.
3. Understand world politics after World War and attempts to restore World peace.
4. Introduction to political shifts in West Asia.

B.A. GEOGRAPHY

- Students will develop a solid understanding of the concepts of “space,” “place” and “region” and their importance in explaining world affairs.
- Students will understand general demographic principles and their patterns at regional and global scales.
- Students will be able to locate on a map major physical features, cultural regions, and individual states and urban centers.
- Students will understand global and regional patterns of cultural, political and economic institutions, and their effects on the preservation, use and exploitation of natural resources and landscapes.

Vision, Mission, Goals

Vision

- Achieving a pioneer role in the field of Geography and Geographic Information Systems.

- Improving teaching Quality
- Being distinctive amongst the other departments on the national, regional, and global levels.

Mission:

- Establishing a system of moral values and the commitment of the rules of scientific trusteeship, encouraging creative thinking and freedom of thinking
- Achieving quality and assurance in education, scientific research and community service by improving the student's personality to enable him/her to be self-learner.
- Introducing selected programs that help the students to fulfill his/ her academic and personal ambitions

Goals:

- The continuous development of academic curricula to cope up with the job market needs in the different geographic fields.
- Improving the students' abilities of knowledge, understanding and application of new scientific curricula, in addition to mastering the basic skills of self-learning
- Adapting a clear strategy for scientific research by focusing on solving the community problems and environment
- Publicizing the culture of quality and encouraging positive competition to improve the performance throughout the mutual academic dialogue.
- Achieving the value of teaching this field of study by using the available sources and the investment of students' abilities in understanding the environment and deepening loyalty
- Holding workshops and seminars for the academic staff to follow up with the latest scientific and technological improvements.
- Satisfying the community needs by the distinctive scientific service for the department and conducting research to solve the community and the environment needs.

**B.A 1st Semester
Introduction to Geography**

Course Objectives:

This introductory paper is intended to acquaint the students with distinctiveness of Geography as a field of learning. The philosophy of the subject is to be taught in order to develop a keen interest in the subject and to pursue it for higher studies.

Learning Outcomes:

At the end of this course students are expected to have a holistic understanding of fundamental concepts of geography and thereby be able to analyze the interrelationships among them.

**B.A 2nd Semester
Physical Geography (Climatology)**

Learning Outcomes:

1. Understand the effect of rotation of revolution the Earth

2. Know the internal structure of the earth know the importance of longitudes & latitudes International Date line and Standard time
3. Understand interior structure of the earth
4. Understand Theory regarding of Origin of Continents and oceans
5. Study the formation of Rocks Understand the work of internal and external forces and their associated landforms.
6. Understand the importance of Atmosphere
7. Understand the composition of atmosphere
8. Know Measurement of Atmospheric Pressure and formation of Pressure Belts
9. Understand the types of winds

B.A. 3rd Semester Geomorphology

Learning Objective:

- 1) Understanding of natural processes which act on the earth's surface and the landforms.
- 2) The course also considers some of the practical aspects of reading a Geomorphological map, recognizes the landforms understanding the natural processes.
- 3) The field trip is the assimilation of the theoretical knowledge.
- 4) Introduce students to basic concepts of Geology and Geographic processes

Learning Outcomes:

- 1) To know the fundamentals of Physical Geography.
- 2) Understand latitudes, longitudes and international dead line.
- 3) Acquire knowledge about origin of various landforms.
- 4) Understand the origin of oceans and currents.
- 5) To Understand formation of rocks their types and uses.
- 6) Understand the work of internal coeres.
- 7) Acquire knowledge of external forces.
- 8) Study the land forms and process.
- 9) Study the denudation processes.

B.A. 4th Semester Human Geography

Learning Objective:

- 1) Students will develop a solid understanding of the concepts of "space," "place" and "region" and their importance in explaining world affairs.
- 2) Students will understand general demographic principles and their patterns at regional and global scales.
- 3) Students will be able to locate on a map major physical features, cultural regions, and individual states and urban centers.

- 4) Students will understand global and regional patterns of cultural, political and economic institutions, and their effects on the preservation, use and exploitation of natural resources and landscapes

Learning Outcomes:

- 1) Students will acquire an understanding of and appreciation for the relationship between geography and culture.
- 2) Students will have a general understanding of global human population patterns, factors influencing the distribution and mobility of human populations including settlement and economic activities and networks, and human impacts on the physical environment.
- 3) Understand the relationship of man and environment
- 4) Studies of races of man kinds.
- 5) Understand the modes of life of aximo, pigmy, gonad, Bhil and Nagas.
- 6) Importance of Right to Information Acts.

**B.A 5th Semester
Geography of Maharashtra**

Learning Objective:

- 1) To familiar the students with basic knowledge of our state.
- 2) To prepare students for NET, SET and competitive examinations.
- 3) To aware the students with available natural resources and need of conservation and protection
- 4) To acquaint the student with prospects and problems of agriculture, industries, trade and transport of Maharashtra.
- 5) To know the demographic structure of Maharashtra.

Learning Outcomes:

- 1) Understand the Geographical Personality of Maharashtra
- 2) Study the Major river in Maharashtra
- 3) Study of major Agricultural crops of Maharashtra.
- 4) Study of major Agro based industries of Maharashtra.
- 5) Study of importants & Development of the tourism in Maharashtra.
- 6) Acquire knowledge of forests in Maharashtra
- 7) Study of population, Urbanization of Maharashtra.

B.A 6th Semester Geography of India

Learning Objective:

- 1) Students will get an introduction to the main regions of the India in terms of both their uniqueness and similarities.
- 2) Students will be exposed to historical, economic, cultural, social and physical characteristics of India.
- 3) Students will learn the relationships between the global, the regional and the local, particularly how places are inserted in regional and global processes.
- 4) In addition to the ability of understanding and reading maps, students will develop cartography skills and will be able to create maps on their own.
- 5) Students will be introduced to demographic, social and cultural attributes such as migration, social relations and cultural identity.

Learning Outcomes:

- 1) Identifying and explaining the Indian Geographical Environment, from global to local scales.
- 2) Applying geographical knowledge to everyday living.
- 3) Applying knowledge of global issues to a unique scientific problem.
- 4) Showing an awareness and responsibility for the environment and India.
- 5) Evaluating the impacts of human activities on natural environments special reference to India

Practical Geography all Semester

Course Objectives:

The course aims to develop skills of map reading and understanding. It also encourages students to understand and correlate the different measurement systems which are essential to understand the geographical concepts.

Learning Outcome:

- 1) To learn drawing of Scale Diagram for representing geographical data.
- 2) Skill of drawing of map, grapes, diagrams scale.
- 3) Students are expected to be familiar with the basic cartographical skills such as basic elements of map and map reading.
- 4) Get skill of Drawing of projection.
- 5) Acquaria knowledge of map making techniques.
- 6) To understand to choice of projection according purpose of making maps.
- 7) Study of Scales, Projections and Surveying (with the help of plane Table)
- 8) Understand the different surviving techniques.
- 9) Knowledge about preparation of layout.
- 10) Understand the socio economic condition of the villages.
- 11) Acquire knowledge of preparation of drawing of profile with the help of Dumpy level.
- 12) Acquire knowledge of preparation of drawing of profile with the help of Prismatic Compass
- 13) Interpretation of Toposheet, weather reports, Cartographic techniques & Geo Statistical Methods.

- 14) Understand the History of Remote Sensing
- 15) Know Aerial Photographs and Satellite Imageries
- 16) Acquire Knowledge about Indian Remote sensing.
- 17) Investigate components and function of GIS
- 18) Study GIS Data models.
- 19) Introduce GPS and Its Functions.
- 20) Make use GIS & GPS software.
- 21) Understand the basic concept of RS.
- 22) Identify the various landforms.
- 23) Mapping and interpretation of Aerial Photograph.
- 24) Calculation of scale of land sat imageries.

B.A. ECONOMICS

B.A. I – Micro Economics

Aims & Objective of Economics

1. Ability to use Economic Problem Solving Methods

Objectives-

1. Students will be able to use quantitative, graphical and Statistical methods to solve economic problems.
2. To acquaint the students with the contemporary economic problems and enable them to appreciate the efforts being made to tackle them.
3. To enable them to acquire skills in interpreting
4. simple statistical data.

Learning Outcomes

- Students will appreciate how Economics engagement can improve our lives and our world
- Students will be able to articulate and defend their own points of view
- Students will be able to defend their views in oral and written contexts
- Students will be able to apply their analytical and communication skills to these issues
- The study of economics provides students with a range of important skills necessary to continue in the field of research and analysis, and equips students with a portfolio of widely transferable skills valued by employers.
- Understanding how different degrees of competition in a market affect pricing and output.
- Knowing the decision making of consumer.
- Identifying the nature of revenue and cost of production.
- Comprehending the demand function and production function.
- Realizing various production theories.
- Clarifying the meaning of Marginal, average, total revenue, and Marginal, average and total cost and its implication.

- Awareness of different markets structure.
- Understanding pricing in different markets.
- Judging the factor pricing.

B.A. II Macro Economics

Aims & Objective of Economics

1. Advanced Understanding of the Macro Economic Theory of how the Economy Functions

Objectives-

1. Students should be able to show a proficiency with the closed economy macro- economic model of the economy.
2. Students should be able to show a proficiency with the open economy macro-economic model of the economy.
3. Applications of Macro and Indian Economic Theory to Monetary Policy, Banking, Digitization etc.
4. Analyze monetary policy, banking and Digitization documents such as Federal Reserve statements and articles from the financial press, Budget, New Banking development.
5. Use financial/economic databases to collect a macro and Indian economic data set.

Learning Outcomes

- Economic graduates have gone on to employment in a range of professional roles in both business and public sectors, such as international banking and finance, Budget, National governments in many parts of the world, international organizations and development agencies, non-governmental organizations, academia and current economic development.
- Economics-Finance majors should have an in-depth knowledge of macroeconomic policies and financial markets. Our majors should be able to discuss the motivations and impacts of policy decisions, especially with regards to the business environment. Students must be able to interpret news and events in the media from an economic perspective. This analysis of real world events will help students to improve their decision making in a national and international context.
- Creating awareness about changing macro-economic policies and theories.
- Understanding the meaning, function and role of commercial banking.
- Comprehending the procedure of an account opening, operating and closing.
- Knowing the structure, function and role of RBI in economic development.
- Judging the progress of financial inclusion.
- Evaluating the importance, characteristics and components of the financial Market.
- Understanding the role and types of development banks and Non-banking financial intermediaries.
- Realizing the banking reforms and Basel Norms-I and II.
- Identifying recent trends in Indian Banking such as E- Banking, MICR Clearing, ATMs, Credit cards and Debit Cards, Travelers Cheques, Gift Cheques, Demat Account. B.A.- II Macro Economics
- Identifying the basic concepts and theories of Macroeconomics.

- Awareness about changing macroeconomics policies and theories.
- Understanding various concepts such as; GDP, GNP NNP, Personal Income, Disposable Income, Per Capita Income, and National Income.
- Identifying the factors determining gross domestic product, employment, the general level of prices, and interest rates.
- Realizing the law of markets, consumption function and investment function.
- Judging the role of fiscal policy and monetary policy in a Developing economy.
- Knowing features, phases and theories of trade cycles.
- Evaluating types, merits and demerits of taxes.
- Comprehending the role of public finance in developing economy.

B.A. III Indian Economics

Aims & Objective of Economics

3 - Advanced Understanding of the Indian Economic Theory of how the Economy Functions

Objectives-

1. To deepen their understanding and knowledge about the impact of development on environment.
2. To develop favorable attitudes towards conservation and wise use of natural resources.
